Professional Cleaning Tips to Make Your Home Look Fab Before a Party

Before Party Cleaning Checklist:

- Wipe over all horizontal surfaces
- Make sure the house smells fresh using fragrant essential oils
- Move unnecessary items to a space they can be retrieved from later.
- Mow the lawn and trim the edges
- Hose down or high pressure clean the driveway and paved areas
- Have a mat at the front door so people can wipe their feet before entering the house
- Clean windows inside and out (they're always noticed)
- Give your bathroom a good scrub top to bottom. Pay special attention to the toilet seats, mirrors and glass since these are the areas which guests tend to notice the most
- Have extra toilet rolls in a prominent place. Remove anything personal from the medicine cabinet
- A table cloth is great for hiding any imperfections on an old table, and can also prevent further wear and tear
- Clean and polish the silver-wear
- Make sure any dinner-wear you plan to use is spotless
- Have a cleaning kit consisting of stain remover, cleaning cloths, bucket, mop, dust-pan and broom, readily at hand in case of disasters
- Dim the lights (or use candlelight) and you may get away with doing less!
- Clean the fridge
