PARTY ANYWHERE WITH A  
**HEN DO ON  
THE MOVE!**

# How to Take your Hen Party Anywhere

1. YOUR OWN PERSONAL CHAUFFEUR FOR CLUB AND BAR HOPPING: Now this obviously depends where you are based in the world. If you are based in a city where the bars are quite far to get to, the last thing you want to be doing is jumping in different cabs every time you want to move to the next location, racking up an expensive bill. Instead, opt for a driver for the day who will be waiting for you, taking you wherever you want to go.

2. GETTING BACK TO NATURE: The club scene not for you? Take in the fresh air of the countryside and enjoy the scenic views that your driver takes you to instead. You girls can go to the beach, go for a walk, have a picnic with some drinks, and/or just take in each other's company; then decide to go home when you are ready.

3. A MINI ROAD-TRIP: Another option is to make a complete day of it by visiting spots as part of a day-long road trip. For example, you may start at your accommodation and then drive up the coastline; listening to your favourite tunes and doing a sing-along. Stop off at a cafe for a bite to eat or some lunch, and then make your way to the next location. This second part of the trip could include games or gossip – just make sure that the driver isn't someone you know!

4. HOW CAN YOU MAKE THIS HAPPEN? The best thing you can do is use Car Rental Buddy, who do car hire comparisons worldwide. That way you can find an option in your city. It shouldn't cost more than \$300.00 for the day, which is less than \$40pp. Not bad for a full day out travelling, right?!
